The only complete stock of mill supplies in Waco, consisting in Part of

Robber Belting, Leather Belting, Rubber Packing, Pipe Packing, Asbestos Packing, King, Bandit Metal, Fittings, Lace Leather, Boiler Bolts and Rivets, Iron Pipe and Fittings, Brass Pipe and Fittings, Wrenches, Pipe Tongs, Sheet Copper, Lead and Tube Cleaners.

Shafting, Pulleys, Boxes and Couplings.

EIKEL & BREUSTEDT,

Austin St. Between Fifth and Sixth.

CAMERON, CASTLES & STOREY,

—WHOLESALE—

Grocers and Druggists

WACO, TEXAS.

The method of handling our Customers' Cotton without commission having proved so entirely satisfactory last year, has influenced us in adopting the same plan for the coming season.

We will receive and promptly dispose of, for account, all consignments from our customers—free of all commissions—guaranteeing them the very best possible classifications and highest market prices.

There are several reasons to be assigned for the belief that the receipts for the season beginning September 1, 1885, will be equally as large—if not larger—than the shipments of the previous year. We have now located with us resident buyers, Agents, who have direct connections with the East and Europe, which virtually throws the Cotton immediately into first hands, thus obviating the heavy expenses, low classifications, delays and increase of freight rates resulting from shipments made through commission merchants of other markets. Our three competitive railroads afford the finest transportation facilities, and insure a lower through and local rates to and from Waco than any other point in the State.

In conclusion, we would especially call the attention of our friends to our increased and carefully selected stock, which has received our closest attention in readiness for the large FALL trade, which is now fairly upon us, our facilities for handling our goods with promptness and safety, and our guarantee to make every transaction mutually satisfactory as well as profitable.

Thanking our customers for their past patronage and soliciting a liberal continuance of same, we remain,

Yours faithfully,

CAMERON, CASTLES & STOREY.

## We Have Just Opened and Put on our Counters New Lines of SEASONABLE GOODS! SEASONABLE GOODS!

FOR EARLY FALL USE. IN DRESS GOODS, we have a New Line of Plaid and Plain Fabric, light weight, and new Patterns in GINGHAMS. WE have the NEWEST in INDIGO and BROWN PLAID and STRIPE. ## CABLE GOSSIP.

Gladstone's Deft Hand Begins to Reveal Itself in British Politics.

If he Carries Out His Scheme, Parnell will be Left in The Cold.

Lord Hartington Stirs up a Hornet's Nest By His Recent Speech.

Germany Fitting Out Four Arctic Expeditions, But Warns up Spain.

### THE CABLE LETTER.

News and Salient Foreign Notes.  
LONDON, September 5.—The British event of the week has been the speech of Marquis of Hartington, having been secretary of war, one of Mr. Gladstone's most trusted ministers, the address is generally accepted as foreshadowing the campaign issues, which will be advocated by the liberal party. The speech was so moderate and so utterly disclaimed the revolutionary projects of radicals, that it has angered the Tories. It would appear from their denunciations of its "lack of policy" as if Lord Hartington had deviously taken the ground from under the conservatives.

Everybody is anxiously awaiting some political utterance from Gladstone. It is thought he may have inspired Lord Hartington and that the latter's speech was put out as "food" and that it will soon be backed up by a powerful address by the "grand old man." This would leave the situation of the Tories, under the leadership of Lord Hartington, in a position of great difficulty, as the Tories, as Lord Joseph Chamberlain's, urging extreme home rule, the conservatives and whigs not in a state of doubt, with prejudices hostile to the Parnellites. Mr. Gladstone is far more influential than the followers of Chamberlain, with the followers of Lord Hartington. As the ex-premier is supposed to desire the return of his party to power, it is not unlikely that his management will be in the direction of combining the whigs and moderate conservatives against the Irish party; calculating upon securing radical support, as he may desire in the house of commons. This scheme, if successful, would give the liberals a sufficient majority in the next house to throw the Parnellites out from the position of the balance of power, and without that possession the Irish party would go to pieces. Then, Mr. Gladstone having Parnell shorn, could solve the Irish question by the means which would please the people of Ireland, and leave Parnell without an issue. The question of independence would disappear when the Irish party, against the Tories and the Parnellites, would cease to exist. The question of independence would disappear when the Irish party, against the Tories and the Parnellites, would cease to exist.

Mr. Jesse Cummings, radical member for Spawfish, speaking at Salisbury, Yorkshire, today, denounced Lord Hartington's address. He described the ex-secretary's programme as "empty" and said it had already done much to disorganize the Tory party. He said that the destruction of this unity is essential to Mr. Gladstone's purpose, if, as is supposed, that purpose is to draw conservatives and whigs together against the Parnellites and Chamberlaines, for the old conservatives will not support a party closely wedded to the radicals. Mr. Joseph Chamberlain's, the great English leader of the radicals, is looking for a political address to the electors of Warrington in Lancashire county next Tuesday. He is now expected to reply to Lord Hartington's disavowal of Mr. Chamberlain's extreme policy but the more radical ones are deprecating this idea and are urging Mr. Chamberlain to refrain from openly splitting the whigs. They advise him to be as moderate as possible, just now, and endeavor to bring Lord Hartington around to his views on the questions of land reform, taxation, and church disestablishment. In the meantime, popular anxiety to hear from Mr. Gladstone increases daily.

Lord Randolph Churchill's speech was a direct reply to Mr. Parnell's challenge to the English party to declare themselves on the Irish issue, and indicates that he is willing to make further concessions to the home rulers. Lord Randolph's health at present is far from good, and, under medical advice, he is about to take a month's holiday.

Mr. Parnell's advice to his followers to discountenance agrarian outrages, is perceptibly bearing fruit. At a meeting of the Cork branch of the National League it was unanimously resolved to adhere to the Dublin conference programme of disavowing outrages and supporting only such candidates for parliament as would pledge themselves to act as a unit on the Parnellite programme. The principal speakers denounced the outrages.

A memorial to the Earl of Carnarvon, viceroy of Ireland, praying the release of the Mayo prisoners, is being circulated throughout Ireland for signatures, and is everywhere securing

They Slick Way in Which Blum's War Ship Got the Best of Spain.

### SPAIN.

The Nation Enraged and Furious at Germany's Action.  
MADRID, September 5.—A sensation was caused here this morning on receipt of important news from the German capital, which stated that the German fleet had reached Yap, one of the islands, on the 21st ultimo, and prepared to occupy it in the name of Spain. Spanish officers were in the city in landing their troops, and on the 24th of the same month a German gunboat arrived, and although it was 7 o'clock in the evening, the German commander instantly landed a body of marines and sailors and hoisted the German flag over the island. The Spanish officials made an energetic protest against this action of the German commander and upon the latter's refusal to recede from the position he had taken telegraphed to Madrid for instructions. A conflict between Germans and Spaniards at the island of Yap, the receipt of the news the ministers were immediately summoned to a cabinet council and King Alfonso was advised of the strained situation. His majesty will be arriving in Madrid tomorrow.

How the Germans Did It.  
MADRID, September 5.—A later dispatch respecting the German occupation of Yap states that the governor of that island wished to resist the landing of the German marines and sailors, but that the latter, by the use of the Spanish war ship, San Quintan, which was the only vessel of that class, refused to agree with the governor as to the adoption of such a course, and the latter's assistance. It is generally believed the commander of the Spanish man-of-war, "Viloso," which was expected at Yap on the 26th of August, carries with him energetic orders.

Another Fanatic Loose.  
LONDON, September 5.—At a meeting of Catholics in London, Prussia, Dr. Windhorst, Catholic leader said the pope still ruled the world and the holy chair must be made independent of other powers. "We now," he said, "are in a state of peril, through the life of the pope, through the life of the pope, through the life of the pope." The speaker asked for three cheers for Pope Leo, which were given with enthusiasm. Several resolutions were passed, including one that the national respect of the chief May laws, especially those dealing with religious orders and the education of the clergy.

Churchill's Condemned in India.  
LONDON, September 5.—The secretary of the Indian association at Calcutta telegraphs that natives' opinion strongly condemn Lord Randolph Churchill's attack upon the Parnellites and Chamberlaines, for the old conservatives will not support a party closely wedded to the radicals.

Mr. Joseph Chamberlain's, the great English leader of the radicals, is looking for a political address to the electors of Warrington in Lancashire county next Tuesday. He is now expected to reply to Lord Hartington's disavowal of Mr. Chamberlain's extreme policy but the more radical ones are deprecating this idea and are urging Mr. Chamberlain to refrain from openly splitting the whigs. They advise him to be as moderate as possible, just now, and endeavor to bring Lord Hartington around to his views on the questions of land reform, taxation, and church disestablishment. In the meantime, popular anxiety to hear from Mr. Gladstone increases daily.

Lord Randolph Churchill's speech was a direct reply to Mr. Parnell's challenge to the English party to declare themselves on the Irish issue, and indicates that he is willing to make further concessions to the home rulers. Lord Randolph's health at present is far from good, and, under medical advice, he is about to take a month's holiday.

Mr. Parnell's advice to his followers to discountenance agrarian outrages, is perceptibly bearing fruit. How Those Three Trusted, But Tricky Trustees Took The Cash.

### TEXAS TRAFFIC ASSOCIATION.

It Fixes the Rate on Freight to Common and Competing Points.  
GALVESTON, September 5.—The general freight and travelling agents, representing the roads composing the Texas Traffic Association, who have been in session in this city during the past week adjusting rates to common points, practically completed their labors last evening, at which time the executive committee convened. Colonel Hoxie, of the committee, was represented by proxy at the meeting to-day. The committee ratified the work of the general freight and travelling agents and completed the schedule of minimum rates to and from competing points in Texas. The committee was in session during a portion of the day and after transacting other business touching the regulation of the pooling arrangements, they adjourned this evening subject to the call of Commissioner Waldo.

At the meeting of the committee, the following rates were fixed: Between Houston and common points in the state have been ratified and remain unchanged. Galveston rates have been reduced to figures equivalent to ten cents per hundred pounds higher than Houston rates on "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds; for car-load lots from Houston forty-five cents and from Galveston forty cents; for "classes one, two and three," six cents higher on "class four," and five cents higher on "class five," and rates upon the following articles were adjusted separately: Sugar, rice and molasses from Galveston to common points here named at fifty cents per hundred pounds;
